

# ABOUT US

Construction Solution For Everyone. We Build Your Vision Through Quality Work.. We Believe in Fine Construction.

## **1REAL ESTATE & MARKETING**

is a multi-disciplinary design and construction company focused on serving our clients, empowering our employee-owners, and enhancing our communities.

Simply, we are a design, engineering and construction company. But there's much more to who we are than what we do.

The base services we offer are just the tools we use to solve our clients' real estate challenges.

Through our ability to deliver strategic and creative project solutions, we create value, which in turn, help our clients achieve their goals.

Being a firm that helps bring worth to the built environment is an incredibly rewarding and, ultimately, profound definition of who we are.

We offer a wide variety of professional services from our global offices.

Our capabilities range from architecture to interior design, full-service engineering including civil, MEP, structural and industrial process, to a variety of construction services.

The professionals at **1REAL ESTATE & MARKETING** are also capable of providing our clients a variety of strategic consulting and sustainability services, including logistics, LEED/ BREEAM consulting, energy modeling and owners services.

A true global firm with the capability to uniquely serve each location we call home.
